growforgood™

Multikraft Probiotic Solutions is a world leader in multi-strain microbial technology, with over 25 years of experience.

Sizes available

20L

1000L

Defence NRG contains a unique microbial consortium mixed with fermented garlic and chilli extracts. It promotes the plants natural defenses against parasitic and fungal attacks whilst strengthening the plant against potential pests and diseases, improving the overall resilience of plants and crops.

Key ingredients:

- Fermented microbial consortium
- Bio-ethanol
- Fermented extracts (chilli, garlic & nettle)
- Apple cider vinegar

Key benefits:

- Improves nutrition, resilience, and growth.
- Plant health enhancement agent fermented with probiotic microorganisms.
- Strengthens and invigorates plants defences against pests and diseases.
- Promotes natural plant defences against parasitic and fungal attacks.
- Improves the natural resilience of plants.
